## JEWELLERY SCHOOL & ACADEMY

### Intensive courses for groups

The school offers courses of a duration comprised between 1 week and 3 months, reserved for groups of students originating from the same country who have the same educational objectives and who speak the same language.

The content of the course can be agreed with the group, which must be as homogenous as possible in terms of individual competencies and the objectives to be achieved.

The lessons may be held in Italian, or in the language of the group: in this case the school may deal with the recruitment of an interpreter.

In the case of schools, academies, universities and training centres, the school may negotiate costs for entering into agreements and covenants for the issuing of educational credits.

The school may offer suggestions for lodgings, on the basis of the requests.

The following table contains only **examples of courses**. Schools, Academies, agencies and interested groups may propose a different work topic or duration, based on their requirements, and the school will proceed to formulate an offer.
